DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission, filed 10/11/07, has been entered.

APPLICANTS' ARGUMENTS

Amended claim 21, filed 10/11/07, is acknowledged. Applicants' arguments and amendments, filed 10/11/07, have been fully considered and are persuasive. The species election requirement is hereby withdrawn so that claims 28-31 and 34-35 are rejoined. The examiner's amendment below places the previously withdrawn claims due to the specie election into allowance. All of the previous rejections and objections have been withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gayle O'Brien on December 11, 2007.

In the claims:

Cancel claims 1-20 and 36-88.

In claim 28, line 1, delete "ligand"; replace with "compound".

In claim 28, line 2, add a period at the end of the sentence.

In claim 30, line 1, delete "ligand"; replace with "compound".

In claim 30, line 2, add a period at the end of the sentence.

In claim 34, line 1, delete "ligand"; replace with "compound".

In claim 34, line 2, add a period at the end of the sentence.

REASONS FOR ALLOWANCE:

The following is an examiner's statement of reasons for allowance:

The invention is directed to a method of identifying a compound which is a potential inhibitor of a Tie-2 protein comprising crystallizing, obtaining atomic coordinates, using said atomic coordinates to define the active subsites of Tie-2, and identifying a compound that binds to one or more active subsites in a manner not previously disclosed in the prior art. The 35 USC 112, 1st paragraph rejection for claims 21-27 and 32-33, mailed 7/2/07, was removed due to the Applicants' amendments. The Examiner's amendment above makes the previously withdrawn

species claims allowable. Because no outstanding rejections remain, claims 21-35 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
